

BRAD ARNOLD

SENIOR VICE PRESIDENT, GLOBAL CROP CYCLE AND FUSE CONNECTED SERVICES

Brad Arnold is **Senior Vice President, Global Crop Cycle and Fuse Connected Services** for AGCO. In this role, Brad drives innovative, market-driven solutions for the full crop cycle while helping farmers realize the business value of Fuse. This role is a steady progression of his responsibilities as General Manager of Precision Planting that will leverage his passion and track record of enabling teams to create unique value for farmers. He is based in Duluth, Georgia, USA.

Mr. Arnold started his career in public accounting with KPMG, and he then spent more than 10 years as the CFO of a joint-venture tier 1 automotive supplier. Prior to joining Precision Planting in 2009, Brad held leadership positions at Caterpillar, including roles as a Business Manager in Corporate Strategy and Controller of their Global Mining Business Unit. During his tenure at Precision Planting, the team increased market share, launched innovative products and established itself as the premier provider of precision agriculture technology.

Mr. Arnold holds a Bachelor's degree in Accounting from Eastern Illinois University, and a Master's degree from Lincoln Christian University in Lincoln, Illinois. He is a Certified Public Accountant.
